

Self-Introduction

Hello, my name is Inzamam ul haq I have completed my masters in computers from VTU university. I was working as data scientist with four + years of experience in the Arial (UAV) industry and side by side worked on many projects. My expertise lies in data modelling, data mining, and statistical analysis, and I'm proficient in Python, AI/ML, ML algorithm, Statistics, TensorFlow, GenAI, NLP, CNN, LLM, RAG, SQL, Microsoft Azure. I have a strong passion for using data to drive business decisions, and I'm excited about the potential of data science that can make a positive impact on people lives.
